

Anniversary General Cleaning – The Experience

It doesn't take too much burden when brethren in Christ gather together in churchwork – in this case, the general cleaning done on NCF's main building.

The extensive repainting and refurbishing of church facilities and structures began as early as the last two weekends of July. Throughout the Saturdays of cleaning, NCF's different departments such as the Ladies, Ushering and Youth ministries among others, volunteered to help. Brothers from NCF Banaba also came to their aid.

"We were happy to help," says Sis. Linda Garcia, who provided assistance along with companions. "The presence of unity between us is surely there, which keeps us smiling all throughout."

More than just the repainting of the interior, there was also the repaving of the stage and the redesigning of other decorations, and the clearing of the vacant lot beside the church, courtesy of the Ushering ministry and other church members. The installation of brand new multimedia equipment and the cleaning of church furniture also found notice.

All in all, things were very special and presentable by the time of the anniversary Sundays. The brightness went beyond the physical sense of the word as the sort of fellowship they had is a great example of brothers in Christ living together in unity.
