

NCF Banaba Holds its First Worship Seminar

Last January 16, 2010, NCF Banaba Chapter-Music Ministry formally began its first worship seminar. This was attended by around twenty young people.

The aim of the seminar was to form a new band, to be known as "Genesis Band." Skills were not only the standard for band membership but also their relationship with God. This includes regular devotion, church attendance and their behavior at home. They will be the next NCF Banaba musicians.

The opening of the seminar was led by Gracce Mones, who is currently the head of the team. The true meaning of worship was explained to all those who were in the gathering.

Training them to become instrumentalists and going in-depth on true worship were continually being done for the purpose of molding the youth.

Mark Madrinian taught basics on bass guitars; Del Maluya handled the rhythm guitars class while Robert Balon instructed on drum basics.

Thanks be to God for the life of Sister Gigi Dantes, who taught and guided the whole team, as well as that of Brother Michael Dantes, who shared his knowledge for the further improvement of the workshop leaders.

We continually ask for your prayers in support of this activity. To God be the worship and thanksgiving!
