

NCF Takes Leap in Membership Information Management

Bro. Ronald Jose and Sis. Hannah Guzman, expert computer programmers from a top bank network company, were requested by Senior Pastor Mark Dantes, to create a program specifically designed to enhance the access and management of church membership information.

We are so thankful unto the Lord, because even though Natz and Hannah are so busy in the office, they still managed to offer back to God their time and skills for the edification of the church, as this program eyes to aid the Pastoral Team to effectively and efficiently lead the flock. It will be a lot easier for pastors to have the information they need, such as the reason why a person has not been attending the church lately due to sickness or problem perhaps. The system will also easily identify the candidates for baptism or membership, the ministry one may be referred to, their needs such as counselling and other pastoral services.

"We tried using a system that we purchased before, but proved to be of little help. This one you've created is so user-friendly and I'm so excited to have it ready for all of us..", said Pastor Mark. The system is close to its completion and will be on test - run for the month of November, and Lord willing, all set for December. Pastor Mark also hinted that ID will soon be available to members, but not like the old laminated cardboard we had before.

We strongly encourage you to offer your talents, gifts and abilities for the glory of God and for the strengthening of the church. Whatever that may be, there would always be a place for you to serve God here in Novaliches Christian Fellowship!
