

The Brand New Women's Comfort Room

At long last, the women attending at Novaliches Christian Fellowship Main gets the restroom problem solved with the construction of a new and larger comfort room now finished.

Situated on NCF's recently-acquired vacant lot just beside the old restrooms, the new CR contains four cubicles, a shower room, and a huge mirror set up to help the women in fixing themselves.

Along with the previously constructed men's restroom, the project was a long-time vision as members and attendees found difficulty in dealing with the long lines on the previous restrooms, containing only two small cubicles. The doors were opened for it when funds started coming in, and the church leaders started a campaign by the end of March.

Finally, the women got their own brand new CR when it was opened last May 23. They were so thankful that even the song leaders were keen to mention it on praise-and-worship gatherings.

The restroom marks the preparation for the full time construction of an entire building on the vacant lot in the near future. The vision includes a new worship center along with dormitories, libraries, classrooms, offices and multipurpose rooms.

But for now, the new CR still makes a blessing out of the lot, a blessing that doesn't go unappreciated.

NCF would like to thank everybody who has prayed for the project, as well as the kind hearts who sent donations, from here as well as abroad. Most importantly, all the thanksgiving is offered back unto the Lord, who sends such inexhaustible mercies.
