

NCF Enlarges Its Territory in the World Wide Web

Just as how God answered the prayer of Jabez, He also gave the desire of the hearts of His children here in Novaliches Christian Fellowship through its website www.ncf.org.ph.

NCF did not waste the vast opportunities internet presents to its users. A new team of programmers, writers and web designers worked together with the same vision and passion: to proclaim the gospel of our Lord Jesus Christ to the lost and to be an avenue of blessings to fellow believers.

This October, a year after the team was reorganized, NCF saw radical growth in the use of the website. Recorded messages of pastors, testimonies, news and updates, wonderful pictures of the events and activities held in NCF can be seen and downloaded right to your own computer. Yes, even videos!

Not only did the website grow in its contents, it also soared in “hits” or the number of times it is clicked or browsed by internet users. That’s not just here in the Philippines, but also from other countries such as US, Russian Federation, Australia, Finland, Italy, United Kingdom, Saudi Arabia, Singapore, Greece, Brazil, Malaysia, Indonesia, Japan and even South Africa.

Indeed, God is continuously enlarging the “territory” of NCF, and we will see a lot more to be added in the website, including inspiring devotions that will give a fresh breath of practical application of the Word of God.
